

WHAT WE CAN OFFER YOUR TEAM

The One-Day Challenge

This is our most popular Challenge. As with the Project Challenge, this may involve teams from between 8 to 100 or more participants, but in a project that is completed in one day. The larger projects are particularly popular for those companies that want to bring together employees who would otherwise never work together, and the smaller projects give individual teams the chance to do something different together. Each project is tailored to suit the group and can include a tour of the property, lunch in the restaurant or tearoom, and a barbeque afterwards to celebrate the day's work.

'Thank you very much for arranging the activities that we took part in earlier this month. The whole team thoroughly enjoyed themselves and went home tired but satisfied. For those of us who spend the majority of our time in an office, the opportunity to get out and do something physical is very valuable. The lunch was just what we needed and it was lovely to be able to explore the castle afterwards. We got to know each other a whole lot better and the poster that has gone up has generated a lot of smiling and discussion. I have had many requests to continue the work we started, the setting is wonderful and we hope to be back again next year, if not before!'
